

Are you a senior BAME leader ready to make a difference?

If you're working at Band 8a or above, our innovative and inspirational Ready Now programme (for black, Asian or minority ethnic leaders) takes you on a transformational journey, helping you realise your potential to take that next step up to a more senior role, to the boardroom and beyond.

“The benefits of the programme are multidimensional; it’s about developing you as an inclusive leader, contributing to your organisation’s equality and diversity objectives, thinking about patient demographics and looking at whether the service design meets their needs.”

Ranjita Sen, Head of Performance and Information,
Moorfields Eye Hospital NHS Foundation Trust
